While you are Here

There are miles of hiking and biking along the Allegheny Trail that runs adjacent to the Allegheny River. After a local drive north to Coal city you can hike the 1.5 miles to Indian God Rock. Although the petroglyphs are barely visible on this steep inclining rock – it is a nationally registered site on the bank of the Allegheny.

The Foxburg Country Club (foxburgcountryclub.com) hosts the oldest continuously used Golf Course in the United States. It is also home to the American Golf Hall of Fame. The two-story exhibit houses countless golf artifacts that celebrate the game of golf and its rich history. The American Golf Hall of Fame is open from April through October and offers free admission.

North of Clarion the Cook Forest State Park offers miles of hiking. The easily accessible Cathedral Tract is home to some of the tallest tree species in the Northeastern United States, and includes virgin white pine and hemlock trees that are over 300 years old and over 200 feet tall.

We recommend a stop at I-80 Exit 81 to visit the nearby Scripture Rocks Heritage Park (scripturerocks.com) operated by the Jefferson County Historical Society. Here 67 large engraved boulders tell the story of an eccentric individual who carved them over 100 years ago. This site is part of what is the largest historic period rock art site in the US (extends over 4 linear miles around Brookville). Also plan a stop at the Jefferson County History Center (downtown Brookville) for award winning exhibits on western PA history including a special Native American gallery.

North of Dubois at Benazette you can check out the Elk Country Visitor Center (elkcountryvisitorcenter.com) for an opportunity to view this region's wild elk herd. By mid-August the elk will be gathering and easily visible especially at dusk.
